PROJECT

KMJ PINJAM

Johor Matriculation College

2025-2026

- Architected and deployed a full-stack reservation platform to replace manual, paper-based bike booking processes at JMC. Developed a user-centric interface with real-time tracking to automate asset management and administrative workflows, significantly reducing data entry errors and modernizing campus logistics through a scalable digital infrastructure.

SWITCHOFF!

Group 1: Tech CC

2025-2026

- Engineered a universal IoT retrofit system in a four-person team to monitor and remotely manage lighting and ventilation in hostel environments. Developed a hardware-agnostic switching mechanism compatible with diverse switch geometries, enabling real-time status tracking and remote operation without electrical rewiring to effectively reduce energy wastage.

SKILLS

- Web Development
- Software Development
- IoT Developer
- Cybersecurity
- FPV Drone
- Leadership

EDUCATION

SECONDARY SCHOOL

SMK Seri Tanjong, Kuala Selangor
2020-2025
9As SPM

PRE-UNIVERSITY

Johor Matriculation College
2025-2026
4.0 CGPA
